## PLYMOUTH I.O.O.F. HAVE GREAT MEET

Splendid Team From Rochester Lodge,  
Thirty-two In Number, In New Regalia, Give Degrees to Twelve Candidates--Banquet Follows.

Last night was a big time for the Odd Fellows of this part of the state. It was one of the great occasions for American Lodge No. 91 of Plymouth and also for Rochester Lodge No. 47.

Nearly 300 were here and they made such a crowd that the lodge room would not hold them. It was necessary to rent the Armory and hold the meeting there, which they had intended giving in the lodge rooms.

A large number of American lodge went to the Lake Erie train to welcome the 108 Fellows from Rochester. From the train a procession formed two blocks long, and went to Plumb street, thence north to Jefferson, east to Michigan, and south to the lodge room. Finding all could not get in they then went to the Armory. Odd Fellows from the

surrounding towns were here in the following numbers:  
Rochester 108, Bourbon 27, Tyner 25, Argos 14, Kewanna 12, Leiter's Ford 8, Tiosa 8, Maxinkuckee 6, Plymouth 90--Total 298.

The team from Rochester lodge conferred the degrees on twelve candidates eleven of whom were from Tyner, and the other from Plymouth. The Rochester team has been practicing for months to appear as the expert team of the state before the Grand Lodge in Indianapolis at the next meeting. They were therefore in splendid trim and appeared in their brilliant new regalia making the finest display of team work ever seen in Plymouth. American lodge greatly appreciated their coming here to give the work. After the degrees, a banquet was served at Hill's hall.

## REV. W. C. LOGAN IS CALLED TO THIS CITY

PREBYTERIAN CHURCH SE-  
CURES GOOD PREACHER  
FROM CHARLESTON, ILL.  
BEGINS SUNDAY.

PREACHED HERE TWICE

Congregation Is Unanimous In  
Their Call--New Minister Is a  
Young Man and Will Move  
Here At Once.

At their meeting last night the Presbyterian congregation unanimously called to the Plymouth church the Rev. W. C. Logan of Charleston Ill.

Rev. Mr. Logan preached here on Easter Sunday and again on last Sunday. He is a superior speaker and pleased all who heard him. Though non a man of striking appearance he is an orator and the church believes it has made no mistake in its call.

## CITY SCHOOL ENUMERATION

TOTAL NUMBER IS 930, WHICH  
IS TEN LESS THAN LAST  
YEAR'S FIGURES FOR CHILDREN OF SCHOOL AGE.

Louis G. Borton and A. L. Gari, who have been getting the enumeration of the city schools, report that there are 620 west of Michigan street and 310 east, making a total of 930. This is ten less the enumeration figures of last year show.

Foley's Kidney remedy acted quickly

M. N. George, Irondale, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley Kidney Remedy." For sale by all Druggists.

## CHARM IS REALLY ANOTHER KIND OF THE BEAUTIFUL

Grace of Mind More Satisfying Than Grace of Form.

CHARM--charm--we read about it, we hear about it and we talk about it, but it seems to be an inexhaustible topic. For, like beauty, we never seem to tire of it and always there is more to say about it.

But of the two--beauty and charm--it seems to me that it is beauty which holds the first place in the estimation of the little girl who sits before her typewriter day after day, her mind on the letters she is writing--when it isn't filled with daydreams.

Yes, daydreams; for even in a prosy business office we can't keep the daydreams wholly in the background, although the wisest of us--those who wish to make a success of their particular line of endeavor--make an effort to confine these dreams to the leisure moments outside the office.

And in these daydreams she always pictures herself as the beautiful heroine; not the heroine whose greatest attraction is her charm; not the heroine in a courageous sense, but beautiful, simply beautiful.

But although she hears about charm and reads about it this doesn't seem such a desirable acquisition as beauty, although, to tell the truth, in the long run the possessor of charm has more of a chance at popularity than the proud possessor of beauty.

You won't believe this, but let me tell you a little story.

Once upon a time two princesses were born, and when the fairy godmother came to their christening she bestowed beauty on one and charm on the other.

But the mother, on looking at the baby whose gift was charm, was much disappointed, for she was, oh, so homely.

As the years passed and the children grew the queen, their mother, noticed that the people who had admired the beautiful princess had transferred their admiration and affections to the homely one.

This saddened her, for the beautiful princess was her favorite child, and in her eyes was the embodiment of perfection. So she determined to ask the fairy godmother the reason for the unpopularity of her favorite daughter.

"You have always thought that beauty was the best gift that could be given one," answered the wise old fairy. "But through your daughters I have sought to teach you a lesson."

"And this is the lesson, that I would teach," finished the fairy. "That no matter how perfect one's face may be if they do not strive for perfection of mind their beauty goes for naught."

### THE CANDY OF OTHER DAYS.

Before the general use of sugar it is evident that the varieties of sweets, as we understand the term, must have been limited; even when sugar became known its price--according to some authorities, equal to about \$7.50 a pound of our money--must have made them the luxury of the wealthy. It is true, however, that there are in use today, though in different combinations, very many of the ancient equivalents for sweets; the various delicacies "au miel et pistache," are only another form of the "honey and nuts or almonds of which 'earliest records tell us. It is also probable that the candied fruits especially in evidence at this time differ only slightly from the mellepepla and dulcioria of the Greeks and Romans.

But when sugar came into general use sweets blossomed forth in a thousand varieties. Indeed, "thousand" is scarcely the word, if we are to take the word of the Spanish confectioner in Beaumont and Fletcher's plays, who declared that he could "teach sugar to slip down your throat in a million ways." Other old dramatists give us here and there allusions to the taste for sweets that came in with the time of Elizabeth.

One of the servants of old Capulet begs his comrade to save him a piece of marchpane. There are not wanting authorities to assure us that the "pretty little tiny kickshaw" that Shallow, justice of the peace, bade to be brought into the arbor, were a recognized description of sweets. In other writers of the times we meet with constant references to "kissing comfits," and we learn that these were not, as the name might indicate, twisted up in colored paper and called "kisses," such as are still to be found in old-fashioned candy shops in our own country, but that they partook rather of the nature of our aromatic cachous. Even the "sweet potatoes" so affected by Falstaff were not probably more or less what we now call crystallized, and were eaten much as we eat preserved quinces and apricots.

A packet of sugar was at one time a costly present to make, even to royalty. History tells us of the "comfit-box" that the great Guise missed as he was enticed to his doom--Harper's Weekly.

Clock 300 Years Old Keeping Time. Three hundred years old and still running, keeping as perfect time as the twentieth century clock regulated every thirty minutes from Washington, is the record of a grandfather's clock which is owned by A. R. Simpson of this city. The old timepiece has been in the Simpson family for at least five generations, each owner passing it down with the words always to keep the old antique.

For many years it has run; but a few days ago one of the weights, cords, broke, which caused slight repairs to be made the first time in many years--Saginaw (Mich.) Cor.

## INTERESTING LESSONS IN PLANT PRODUCTION

To show that plants absorb moisture from the soil, take two 1-quart tin cans as near alike as you can get them and punch holes in the bottoms for drainage.

Secure enough garden soil to fill both cans, mix it thoroughly, and sift it to remove pebbles and clods. Fill both cans level full of loose soil, which should then be packed by jarring each can three times on the table or floor.

It is important to have the soil packed alike in both cans. Weigh the filled cans, and if one is heavier than the other, take out enough soil to bring them to the same weight.

Plant five or six kernels of corn in one can, water both cans alike, and set them aside for the corn to grow.

Whenever water is applied to the can containing corn, an equal amount should be applied to the other can in order to keep both soils in about the same physical condition.

When the corn is three or four inches high, wet both soils thoroughly, allow the cans to stand until water ceases to drip from the bottom, weigh them, and record their weights separately. Set both cans in a warm light place where the corn will continue to grow rapidly.

Weigh the cans twice on the following day--morning and afternoon--and record the weights. Keep this up for three or four days, or until the corn begins to suffer from lack of moisture. Water again and continue as before.

You will probably find that the can containing the growing plants loses moisture much more rapidly than the other.

This experiment may be performed in another way by using flower pots instead of tin cans. When the corn is three or four inches high, get two hard pails or cans just large enough to take in the pots to their rims.

Mark on the outside of the pails the depth to which the pots will extend on the inside, and at a point one inch above each mark make a dent which can be distinctly seen on the inside of the pail.

Now fill each pail with water up to the dent, water both pots thoroughly and set them in the pails as shown in the figure.

Set both pails and pots in a warm light place so that the corn will continue to grow.

The next day remove the pots and you will find that the water is not up to the dents; you will conclude, and naturally, that the soil has taken up the water.

From an eight ounce graduate pour into one pail just enough water to bring it up to the dent again. Make a record of the amount necessary to do this. Fill the graduate and bring the water in the other pail up to the dent.

Repeat these operations daily for two or three weeks and you will be able to find out exactly how much moisture the growing plant absorbs.

In order to show that plants give off moisture, take a plant that is well started in a tin can or flower pot, a piece of cardboard, and a glass tumbler large enough to cover the plant, cut a slit in the cardboard and draw it around the plant, seal the slit with pitch, wax, or tallow, so that no moisture can come up through it from below; cover the plant with the glass and set it in a warm sunny place. Moisture will condense on the inner surface of the glass.

If moisture does not condense readily inside the glass, cool the glass by exposing it to a current of cold air or by wrapping it for a minute or two in a cloth wrung out of cold water.

The outside of the glass should then be dried so the moisture on the outside will not obscure that within. That water absorbed by the roots of plants is forced upward through the plant can be demonstrated by severing the stem of a geranium three or four inches from the surface of the soil, setting on top of the cut end of the stem a section of glass tubing several inches long, and fastening the two together by wrapping the joint with a strip of adhesive tape or surgeon's plaster.

Keep the root of the plant normal by supplying it with water. Note what happens inside the glass tube, making observations every few hours. To show that water and whatever substance it holds in solution circulate to all parts of the plant, fill a tumbler about one-third full of lake water, stir it thoroughly with a few drops of red ink or some other brilliant coloring matter, and place in colored water the freshly cut ends of white carnations, white roses, tips of the valley, or other white flowers, or the twigs of trees with young leaves on, or almost any soft green plant.

Be sure that they are fresh. In a short time the colored water will rise through the stems or twigs and may be seen distributing in vein-like patterns through the petals of the flowers or through the leaves.

Hold the leaves up to the light and the coloring matter can be seen more clearly.

In this manner the stream of the plant carries food in solution which has been absorbed by the roots.

"Our milkman is surely honest." "How do you know?" "I overheard him tell the kitchen girl that he boils all the water he uses in his milk."

### Balked at Cold Steel

"I wouldn't let a doctor cut my foot off," said H. D. Eley, Bantam, Ohio, although a horrible ulcer had been the plague of my life for four years. Instead I used Bucklen's Arnica Salve and my foot was soon completely cured." Heals Burns, Boils, Sores, Bruises, Eczema, Pimples, Corns, Sore Feet, etc. 25c at Fred Wenzler.

## MINISTERS OF DISTRICT IN SESSION

BETWEEN THIRTY AND FORTY  
PASTORS OF NORTHWEST

INDIANA. CONFERENCE  
ENCE IN CITY.

## BRING BOYS ALONG

Argos and Culver Preachers Have  
Companies of Boys to Show  
What the Clubs are  
Doing.

Perhaps the most interesting feature of the Methodist Ministerial Association of the Northwest Indiana Conference now in session in this city are the two delegations of boys from Culver and Argos, to show to the other pastors what the boys' clubs of those places are doing.

The Knights of King Arthur Castle Allan-Bane 2239 of Culver were at the church Tuesday afternoon to demonstrate the success of their organization in the solving of the "Boy Problem."

The Knights of King Arthur is a fraternity, private and semi-secret, under the control of the local church. It is based upon the oldest Christian legend, that of the Round Table. It is a revival of the nobler side of mediæval chivalry. The thought is to fulfill the prophecy of King Arthur, that he would return to re-establish a Kingdom of righteousness, honor and service. It is a religious organization.

The plan involves a careful and ingenious system of religious education. Religion is integral but unobtrusive. The Christian life instead of being thought of as a separate and exclusive, is considered as a heroic life of service. Its great work has already been successfully demonstrated among the boys of Culver, bringing from the parents of boys words of commendation.

Rev. Morgan, Pastor of the M. E. church at Culver, presented work of the boys at the church this p.m. but the best argument is the boys themselves. Interested? Ask the Boys!

The boys here are Ray, Asper, Phocian Rhodes, Floyd Davis, Russell Gandy, Eldon Porter, Clarence Medbourne, Leonard Smith, Edgar Shaw, Roy Porter and Walter Speyer.

One of the interesting speakers of the day was Orin Hankin of Flora, who has been in India for several years. He told of Indian customs and religion. Rev. W. P. Hovis of South Bend talked on the Brotherhood Movement. He said that men did not take sufficient interest in the church, but that the fault did not lie with the preachers. The charge that they were preaching an effeminate gospel was not true, he said.

The following ministers are or have been in attendance: Supt. P. C. Currier, who presided over the meeting, Edgar Moore, who is the secretary, R. C. Ballard, Dr. C. E. Bacon, A. L. Brandenburg, W. L. Boyd, G. H. Bright, Dr. Dan B. Brummitt, H. N. Calton, W. W. Clouse, G. F. Craig, Wm. Davis, W. J. Davidson, A. H. DeLong, C. H. Hickman, W. H. Hickman, F. L. Hovis, W. F. Hovis, C. C. Harold, J. F. Kendrick, H. L. Kindig, R. O. Kimbrell, W. B. Morgan, D. E. Noland, G. S. Reedy, H. C. Riley, D. A. Rogers, S. C. Rogers, J. B. Rutter, L. S. Smith, E. S. Shumaker, Clinton Polen, R. F. Sands, R. B. Seaman, Rev. Trimble and A. T. Briggs, Supt. of the Hammond Dist.

### Tuesday Morning

8:00 Sacrament Lord's Supper...H. N. Calton, Richland Center.  
D. A. Rodgers, New Carlisle, Wm. Davis, Lucerne.  
8:30 Sermon...H. H. Cannon, Hamlet.  
9:00 The Social Service Movement in our Church, J. B. Rutter, Monticello.  
Discussion led by five minutes talk by C. C. Harold, Idaville, G. S. Reedy, Walkerton.  
9:45 The New Financial Movements in our Church.

The Duplex Envelope System...A. H. Delong, Delphi.  
The Every Member Canvass...F. L. Hovis, Flora.  
The New Appointment Plan for Missions...G. F. Craig, LaPorte.  
General Discussion led by A. L. Brandenburg, North Liberty, S. C. Rogers, Union Mills, J. F. Ken-

## CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Charles H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children--Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea--The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

*Charles H. Fletcher*

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTRAL COMPANY, 77 MURRAY STREET, NEW YORK CITY.

## NEW TO DISPENSE STATE PATRONAGE

NATIONAL COMMITTEEMAN

HAS BEEN CHOSEN BY PRESIDENT TAFT TO HELP SETTLE APPOINTMENTS IN INDIANA.

President Taft has given striking evidence of his confidence in Harry S. New, Republican national committeeman for Indiana, by asking Mr. New to be his adviser in all Indiana postoffice patronage cases in the future. This means that Mr. New is to perform the functions of a referee in postoffice matters. Mr. New has accepted the trust imposed on him by the President.

In all future postoffice cases the President will look to Mr. New for recommendations.

It was the President's original intention to receive recommendations in postoffice cases from Mr. New and Representative Crumpacker jointly, but owing to the turning down of Geo. P. Haywood in the U. S. marshalship race, Judge Crumpacker has notified the White House that hereafter he will make no recommendations for appointments outside of his district.

### Watch Your Kidneys

Their action controls your health. Read what Foley Kidney Pills have done for your neighbor. Mrs. L. A. Stemm, 1247 N. Main St., Elkhart, Ind., says: "I had a severe case of kidney and bladder trouble and I could find no relief until I used Foley Kidney Pills. They acted directly on my kidneys and regulated them into a healthy condition. I had been troubled with gall stones and swollen ankles, but all these things disappeared and I am never troubled now with these symptoms. Foley Kidney Pills did wonders for me and I shall always recommend them." For sale by all Druggists.

### Decoration Day Exercises

Decoration Day exercises will be held at Poplar Grove church on Sunday, June 3. The program and further notice will be given later.

### A Father's Vengeance

would have fallen on any one who attacked the son of Peter Bondy, of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doctors could not help him," he wrote, "so at last I gave him Electric Bitters and he improved wonderfully from taking six bottles. Its the best kidney medicine I ever saw." Backache, Tired feeling, Nervousness, Loss of Appetite, warn of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware! Take Electric Bitters and be safe. Every bottle guaranteed. 50c at Fred Wenzler.

Foley Kidney Pills take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight and of all the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. For sale by all Druggists.

## CASTORIA

For Infants and Children.
